

Vendor Management w/Northrim

Overview of VM Program and Due Diligence

Douglas Frey, SVP, Information Security Officer
Tze "Z" Tech, AVP, Cybersecurity Program Manager

Northrim Bank®

Agenda

Background

Initial Vendor Due Diligence Process

- Assign Category
- Strat Plan
- Form Team and Review Demo
- Document Collection & Actual Due Diligence Methodology
- Conclusion and Report

Recurring Due Diligence (aka Management Review)

- Use of Venminder
- Repeat DD Steps based on Vendor Category

Who We Are

- Publicly Traded Community Bank (NRIM) based in Anchorage, Alaska
 - ~450 Employees, \$2.6B Assets
 - 17 Branches Located throughout Alaska
 - 2 Loan Production Offices
 - 1 Asset Based Lending Division in Washington
 - Residential Mortgage LLC, wholly owned subsidiary
- Insured and regulated by FDIC, subject to SOX, Internal and External Audits
- Our VM and DD program works for us – Your Mileage May Vary!!

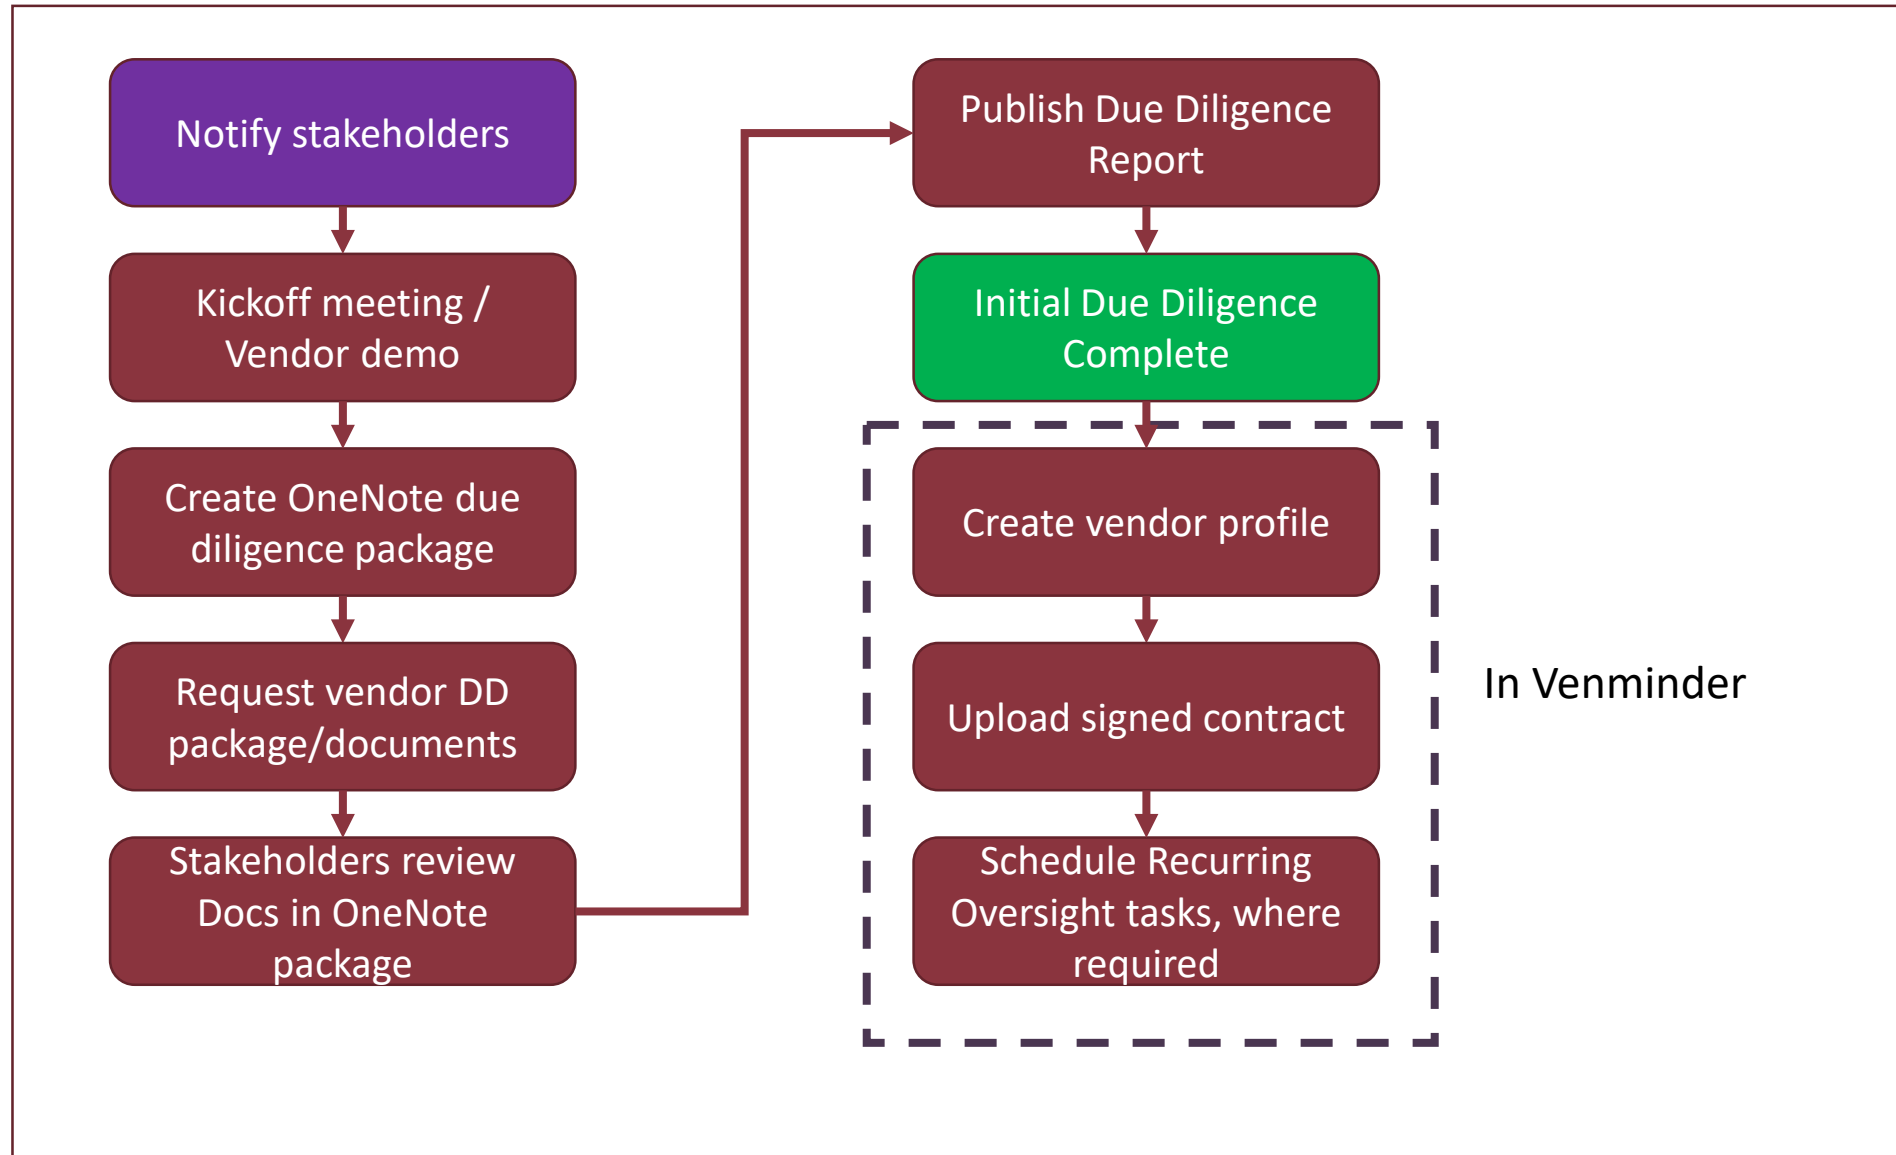

Assign Category

- All Vendors are divided into 2 groups:
 - Non-Technology Service Provider (aka Vendor)
 - Appraisers, attorneys, landscapers, window washers, janitors, etc.
 - Managed by spreadsheet and coordinated with Accounting
 - Technology Service Providers (aka TSP)
 - Core Provider, Loan Origination Software, Software as a Solution Providers
 - Managed in Venminder

Technology Service Providers

- All Technology Projects/Solutions must be sponsored by an Exec, Approved by CIO, and outlined in Board-Approved Strategic Plan
 - Sponsor works with CIO on timing and future year requirements which are codified in Strat Plan
- Sponsor shortlists potential TSPs
 - Organizes/Identifies Stakeholders & Schedules Demos
 - Stakeholders always include IT, InfoSec, Compliance, Risk, and Legal
 - May Include Marketing, Accounting, etc.
- Due Diligence Package Created

Due Diligence Process

Due Diligence Package

- Due Diligence Package Created – Documents Requested
 - We use Microsoft OneNote
 - The tabs in the OneNote are shown below:

Instructions

Background and Stakeholders

SOC and Policy

DD Follow-up Info

Privacy - Compliance

Financials and Insurance

Closing Steps

+

- Documents request list includes:
 - SOC 2 Type 2 Report
 - TSP's Security Policies
 - Brief description on how non-public information (NPI) will be securely transmitted to or accessed by the potential TSP
 - Most recent annual Pen-Test results
 - Most recent annual Disaster Recovery results
 - Latest Certificate of Insurance, including Cyber liability

\$

Northrim Bank®

Due Diligence Package

- We do not use Questionnaires unless TSP fails to provide adequate information in their existing Vendor DD Package
 - We appreciate TSPs who provides a completed Standardized Information Gathering (SIG) questionnaire which aides to clarify DD requirements
 - Venminder has SIG Questionnaire templates which can be used to solicit info from TSPs
 - Venminder Home > Questionnaire > Edit > Create Questionnaire > Load Template
- Once completed – A Final Report is issued and provided to the Sponsor & Relationship Owner
- Closeout tasks are documented

Northrim Bank®

Employing Venminder

- Upload Docs, Assign Relationship Owner, Enter Contract Expiration Date, Create recurring oversight tasks
- Assign Vendor Rating
 - Critical = Any TSP involved in the production or record keeping and used for Financial Reporting (also known as Sarbanes Oxley (SOX) Act of 2002)
 - High = Any non-SOX related TSP where access to NPI is provided; any TSP whose business function has been rated as High*
 - Low = Non-Critical

Northrim Bank®

Secure Your Crown Jewels

- “He who defends everything, defends nothing” -- Frederick the Great
- Focus on your “top/critical” vendors
- Identify all TSPs that receive customer/NPI from your organization
- Ensure these TSPs have adequate controls in place, e.g.
 - ✓ Encryption in-transit, at-rest
 - ✓ Multi-factor authentication
 - ✓ Cyber liability Insurance coverage
 - ✓ Data destruction/deletion upon contract termination
